

Request for Court Assistance / Intercession
Habeas Corpus.

To The Federal Judges of Fort Worth Texas.

My name is Sandra Delake and I am illegally
illegally being held at Carswell F.M.C. under
malicious prosecution and unlawfully acquired
charges by the AG office. To be honest this has
been ongoing for 4 years has the state of MS.
has illegally taken my son ~~LAR~~ 2016.

I have tried to get my current attorney to file
for me on my behalf before the courts but he refuses
to do so until after the evaluation. One that should
have been performed by Friday Dec. 23, 2022 has
I arrived here Nov 8th. I subsequently tried to fire
my attorney and file motions but they have gone
ignored by the judge.

I would like to attempt to file relief with the
Chief Circuit Judge has to be frank my son is in
the state of ~~Texas~~ and MS. and I need my son
back. I am currently charged with 18 U.S.C.
§ 115, 875(c) through the Northern District of MS.
Has I sent an email explaining my distaste for a
Judge Roy Pierce who failed to investigate the illegal
taking of my son LAR. 2022 my illegal incarceration
in Tippah county jail for 15 months before the state
dropped the charges. By which I was denied compensation
for the loss of my home, my disability, my car, my clothing...
Allegations of rape & attempted sodomy of ex youth
court judge Jpe Craig. Ethon confessed he was asked
to step down as a judge, but I was later told he

was recorded telling a woman Michelle "Stelley" Graves, not 100% on the last name but she is ex wife to my former landlord's husband, Stelley's first husband, that if she found him a little boy to molest he would help her with ~~the case~~ her youth court case.

The Termination of Parental Rights judge Robert Q. Whitwell looks like the man who would ask me if I wanted to sell my son to him. The man who convicted his prison of a Felony by refusing to look at C.P.S. lies and manipulations. The Sup person with the wrong address for court. I did not make it to the right court and my rights were adjudicated illegally a violation of my due process. To which the US supreme court is hearing the case heard at the Supreme court of appeals level, but they refuse to address the fact that my child was illegally taken to begin with.

I was even told that the old sheriff raped a woman then tried to have the baby killed by ordering a deputy to deal with the matter. Subsequently she said she was raped with a ice pick to kill the baby. These are all serious crimes and only some of the several crimes I was told about and subject to while in Tipton County Jail.

Later once released I was still kept from my child illegally. I reported him kidnapped. Even called Engle's ship yard a contractor of the Department of Defense asking why they employed child kidnappers. They to DOD inquired with the judge who tried to cover her illegal taking of my son by seeking an order retroactive saying there was an order

of no contact between me and my son. That order was not in existence when reporting my child kidnaped but my pleas went unanswered. I was thrown in jail for busting out the windows of the youth court building who refused to do their job and help me get my son back. These actions Treason

These acts of Treason have been illegally upheld rather than addressed by the government. You all allowing my child to be kidnaped because you refuse to act! You have me illegally held in jail because you refuse to act returning my son. Hell my sons initial C.P.S. intake is not even valid has it had his wrong birthday. Therefore the shelter hearing... all illegally done.

Nonetheless, I argue that my charge is ~~my~~ invalid unless the judge and the actions of MS are investigated for I have my rights through Cohen vs. Cal. through my religious beliefs Deu 24:7 and Col 4:6. Then there are the legal aspects.

II

18 U.S.C. §115 if no action comes from my statement then I should only be charged a fine. Still I have been illegally locked up here in ~~LA~~ Texas for almost 60 days. My ~~property~~ property destroyed upon my entry to this facility and in a state I don't want to be has I was denied royalties to my dad's design of the semi submersible oil rigs built by Exxon off shore of Houston Texas to which they ~~sold~~ sold in 2012 for 300 million to Exxon Mobile.

My dad sexually assaulted me in 2008 I

want no part of money that pays no like some sick
 shit for the abuse nor raise my son on it. I'd rather
 give the money to emines of this country has you sickly
 inoculate society with gay, lesbian, transgender. You
 do nothing to stop child kidnappers, human traffickers, you
 cater to those insane people who piss and shit themselves
 in Carswell, and you keep in office people who don't
 do their jobs or distort the laws.

All violations of the Geneva Convention Crimes
 against Humanity laws and against good morals and
 decency. Not to mention crimes against the constitution
 has to be transgender... is Slanderous unprotected speech.
 So I digress

II

The Wiretap Act states all wire transactions are
 not subject to interception, not in content. Therefore
 the transaction that was sent through either fiber optic
 cable or through satellite through my cell phone service
 are defined as either wire or aural transmissions.

By which both the receiver and sender being in the
 same state there is no option for there to be a change
 of 18 U.S.C. § 875ccj. Even if there were such allowance
 of interception the average person would have to view the
 contents not merely the Storage has a threat. An action
 that is impossible has the data sent was an unscripted
 image. Thus so it was only a portion of any alleged
 threat much like certain chemicals are precursors
 to illegal drugs. However, there is no law to allow
 criminal activity for sending precursors especially when
 not done in furtherance of illegal actions but speak

against such acts.

III

Acts that the Reno Nevada high courts uphold has acts no resulting in jail or imprisonment has a year there shot a corrupt judge and was found innocent.

IV

I believe these actions of the AG and the judge have been done maliciously and in retaliation against me for trying to make known the corrupt actions of the courts and people. Has I have routinely made comments against those people who rear the laws of country and God. I have all to often found myself muted so I can't talk to people or even go on web ~~can~~ can be arrogant ungodly moralsless women whom desire attention, or men set on desertion.

Regardless trying to take my child for sexual exploitation or to harm me and him is unconstitutional. Yet, the foster parent has done these very acts has she refuses to uphold my religious beliefs for my son and has instead made an effort to display her denial of my beliefs.

I request demand my freedom from this facility. I demand the return of my son and compensation for the crimes against me. I don't want to hear shit about lack of jurisdiction because Federal Courts in one district refuse to do their jobs and uphold the constitutional laws of kidnapping my son. My sons dad terminated his parental rights and I am the

sole parent for my son. I demand that charges to fit the crime be placed on those who have done these egregiously heinous crimes. Hanging on the white house steps for crimes against humanity is not a punishment to fit the crime! Forced to eat their own body parts, burning alive in the sun of the salt flats has the crawl to shelter from the sun with skinned flesh slowly burned alive are justice for the extreme nature of the crimes.

I had previously requested no less than 11 Billion from the government but considering the wide spread corruption I think this may be to low for 4 years of abuse and neglect by the government, to both my son and I.

Regardless, my expedite release from this facility that refuses to follow procedures to allow me tort for my losses illegally taken property, to let me allow to my religious guiltiness, and provided a place to stay and securities against corrupt government agencies is demanded. With immediately available money for cigarettes and other needs like clothing, food, transportation...

OK officer McAllister made statements that imply ex parte communication I would like to give full account in person if possible.

I understand I already have on file in the Southern District of MS many of the claims here. I will be enforcing this state on all claims if I am failed to be released and the demands that are stated pursuant to justice granted to

me post haste.

Secondly I wish to bring suit against FMC Carswell for many grounds including homosexual acts, removal of my property without due compensation, unlawful imprisonment, deprivation of liberties through the color of the law has I have sought for weeks to file for my lost property and get help for my case.

I also have requested to apply for a governors asylum here has the state of MS seeks to violate me on malicious charges because of this newest bull shit charge.

Officers. Mrs Brown Counselor for MI, and Mrs. Groves, ^{also FBI} Counselor have refused to do their jobs. The chaplain has refused to provide me my religious based diet. I can't eat food cooked on Saturdays! Refused change of clothing because I only wear dresses or skirts for over a week at a time. Unable to contact my attorney...

For the offenses here in this state alone I will settle for my release into suitable housing. 2-3 bedroom 2-3 bath yard of some kind ~~pool of some kind~~ 30 K for furniture, clothing, home goods, some meaningful employment and transportation, the jobs of Mrs. Groves, Mrs. Brown chaplain Clark to be exited from the city if not state, K Dinkins the intake officer to have to pay for another deep plung t-shirt ~~and~~ smoothing bra in pink 48 DDD from torrid and birkinstock sandals. I still want my teeth fixed and for the job I'd really love paralegal assistant, psychology art assistant, or you can just let me do something beneficial that keeps me secluded has I have a genuine dislike for society. I enjoy making baby food

aspire to have my own aquaponics for where I can make soaps, can my own food... Well I even design clothing, furniture, landscaping... Oh I love to plan functions like kids parties for Halloween, Easter, after school functions...

I have an idea of how to turn an aquaponics garden into a year round farm for all seasons, and to decrease the acreage needed for cattle, among other ideas like the super sticker raceway for shrimp designed by the Texas A+M professor.

FYI My lawsuit at the federal level is only for Harrison County. So double jeopardy should not apply. I know you'll argue that you don't have jurisdiction of me as I am here for the courts of MS. Yet they act illegally and I'm to be treated without my rights because and for an illegally acting court? What of infanticide appeal? What of domestic terrorist actions? You aid and abet by not interceding on mine and my sons behalf. Does not the Federal Courts cover all federal grounds within the territories of the United States.

Regardless you have been made aware of crimes and I am guessing like the Federal Courts of Gulfport will deny me my habeas corpus without even getting documentation of the abuses I suffered in the jail there and the illegal acts of the state. see cases # 1:21-cv-228-TBH-RPM and the cause of documentation 45 I think of the jail records of Harrison county from April 8th 2022 in 1:21-cv-84-TBH-RPM I was denied information for my attorney to contact him. I was forced in the face for refusing to wear pants told by the staff to starve rather than have my religious guidelines. Illegally

kept from my child...

I know there is a case at the southern District of Mississippi. I'm writing the Chief Circuit Judge because they have had evidence and done nothing for far to long. However, the current abuses here they stuff throwing away my property, refusing no stamps, to get letters so I can write courts of change of addresses. Even attorney information and my religious needs... I'm kept on visit restrictions because I cursed out a staff that has ignored my tort claims, grievances for months almost 2 months and I've been held here for over 45 days when the evaluation should only be 30 days by law with one 14 day extension.

Then I am shuffled to your district denied my rights and prevented from my son. I believe believe has they try to declare me insane when I am not. I really have a bad temper with staff who don't work right. I want them jobless! and charged for deprivation of my liberties under the color of the law...

I realise I don't know all the laws but I know what's wrong that I'm a detainee being abused and the warden has done nothing there far regarding the issues.

Sorry for redundancy I am beyond stressed

and this program is continually breaking laws and my rights to which I believe they will unlawfully say I can not be content during trial. Subsequently if I have no reaction they will say I have psychopathic ~~tendencies~~ tendencies...

My mental illness was chronic depression because my mother wanted my dad to molest me and film it for her to watch later. I tried to run away to kill myself because I blacked out when he walked into the room and other times.

She often threatened to make me go live with him abused me mentally... I also have anti social disorder because of the abuse from my parents and other people nothing unwarranted when people are abusive to me. I no longer tried to kill myself when not abused or with my son has I had a reason to live for him.

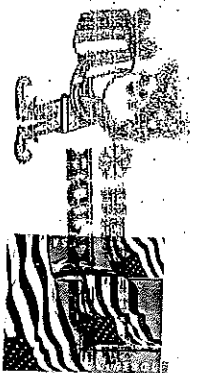

Yet he is illegally taken and I am stuck as the courts won't rule on the matter, people here won't uphold my rights get my son back and stop those people who delete to the point of obscurity all decent people. Even if I try to deal with it, the problem, myself I am illegally sanctioned...

Yes I am angry yes I delight when children are dying from covid or gunmen when my son is illegally taken when the speaker of the house husband is attacked his biden sends aid to a country supporting gay rights and forced inclusion...

Again I request my release from prison asylum from US
malicious prosecution. The return of my son, and monetary damages
for the abuse by guards the denial of my constitutional rights
while being held at Carswell, and assistance from corrupt
judges and government officials
